Energy-Efficiency Rebates

Space Heating:

(Submit application pages 1, 2, & 6 along with contractor invoice and photo of installed furnace or boiler and a second photo of manufacturer's decal displaying make, model, and serial number)

Full description of Energy Efficiency Program is available at www.zngc.com

- \$25 16-Point Natural Gas Furnace Inspection and tune up (must include 16pt. Inspection Form)
- \$200 Installation of natural gas furnace with AFUE of 92 to 94.9%
- \$275 Installation of natural gas furnace with AFUE of 95% or higher
- \$300 Installation of boiler/hydronic heating system with AFUE of 90% or higher
- \$300 Install or upgrade insulation from R-11 or lower to R-30 or higher
- \$325 Upgrade from electric resistive heat to natural gas forced air heat of AFUE 95% or higher
- \$25 Installation of a programmable thermostat.
- \$50 Installation of a smart thermostat.

Old Appliance or insulation:

Manufacturer: _____

Model Number: _____

Serial Number: _____

Efficiency Rating: _____

New Appliance or insulation:

Manufacturer: _____

Model Number: _____

Serial Number: _____

Efficiency Rating: _____
AFUE (Annual Fuel Utilization Efficiency)

Install Date: _____

Total Purchase and Installation Cost: _____

Energy-Efficiency Rebates

Water Heating:

(Submit application pages 1, 3, & 6 along with contractor invoice and photo of installed water heater and second photo of manufacturer's decal displaying make, model, and serial number)

Full description of Energy Efficiency Program is available at www.zngc.com

- FREE Water Conservation Package (1) low-flow showerhead, (2) faucet aerators (while supplies last)
- \$125 Installation of natural gas water heater with Uniform Energy Factor (UEF) of 0.67 or higher
- \$200 Installation of tankless natural gas water heater with Uniform Energy Factor (UEF) of 0.67 or higher
- \$125 installation of natural gas Condensing Storage Tank water heater
- \$275 Upgrade electric water heater to a natural gas water heater with 0.67 UEF or higher
- \$10 Water heater tank insulation blanket.

Old Appliance:

Manufacturer: _____

Model Number: _____

Serial Number: _____

Efficiency Rating: _____

New Appliance:

Manufacturer: _____

Model Number: _____

Serial Number: _____

UEF (Uniform Energy Factor)

Efficiency Rating: _____

Install Date: _____

Total Purchase and Installation Cost: _____

Energy-Efficiency Rebates

New Construction:

(Submit application pages 1, 4, 5, & 6 along with contractor invoices and copy of floor plan indicating square footage and photos of installed furnace and water heater and additional natural gas appliances)

Full description of Energy Efficiency Program is available at www.zngc.com

- \$600 New Construction 2000 sq. ft. or less (all criteria must be met)
 - Main Heat Source: natural gas of 92% AFUE or higher
 - Water Heater: natural gas tank-less of 0.82 UEF or higher; natural gas condensing storage of 0.80 UEF or higher; or regular natural gas of 0.67 UEF or higher
 - One additional natural gas outlet (please specify) _____
 - Insulation of R-50 or greater or an alternate insulation method meeting Energy Efficiency Code
 - Smart Thermostat

- \$900 New construction over 2000 sq. ft. (all criteria must be met)
 - Main Heat Source: natural gas of 92% AFUE or higher
 - Water Heater: natural gas tank-less of 0.82 UEF or higher; natural gas condensing storage of 0.80 UEF or higher; or regular natural gas of 0.67 UEF or higher
 - Natural gas dryer or range (please specify) _____
 - One additional natural gas outlet (please specify) _____
 - Insulation of R-50 or greater or an alternate insulation method meeting Energy Efficiency Code
 - Smart Thermostat

Main Heat Source:

Manufacturer: _____

Model Number: _____
AFUE (Annual Fuel Utilization Efficiency)

Serial Number: _____

Efficiency Rating: _____

Total Purchase and Installation Cost: _____

Water Heater:

Manufacturer: _____

Model Number: _____
UEF (Uniform Energy Factor)

Serial Number: _____

Efficiency Rating: _____

Total Purchase and Installation Cost: _____

Insulation:

Manufacturer: _____

Model Number: _____

Total Purchase and Installation Cost: _____

First Additional Gas Outlet: (Usually cooking range/stove)

Manufacturer: _____

Model Number: _____

Serial Number: _____

Total Purchase and Installation Cost: _____

Second Additional Gas Outlet (over 2000 sq. ft. only): (Fireplace, clothes dryer, BBQ grill or fire pit)

Manufacturer: _____

Model Number: _____

Serial Number: _____

Total Purchase and Installation Cost: _____

Income Qualified Energy Efficiency:

- Clearesult Form completed and attached.
- Income level verified

Commercial Energy Efficiency:

- Clearesult Form completed and attached.

Commercial Energy Alternate Rebate:

- 100 therm savings a year or more number saved: _____
(1 Therm = 100,000 Btu)

Attach Proof of Purchase

Required

Please include a copy of an itemized receipt and/or invoice with your application. Your retailer or contractor can provide this document for your qualified product. Any Applications missing this will be delayed or denied.

Proof of purchase must include:

- Retailer/Contractor name, address and phone number
- Itemized listing of quantity, description, manufacturer, model number and other identifying information as appropriate
- Purchase date and price

Review and Submit Application(s)

Return completed application(s) along with required documentation to local Zia Natural Gas Office or mail to:

Zia Natural Gas Company
Energy Efficiency Program
PO Box 888
Ruidoso Downs, NM 88346

Terms and Conditions

When deciding to participate in Zia Natural Gas Company's ("Zia") Energy-Efficiency Program, please review the following terms and conditions.

1. Zia is not responsible for any decision regarding the selection of equipment to qualify for rebates under our energy-efficiency program. Zia does not make and hereby disclaims any warranty concerning the merchantability or fitness for a particular purpose for any equipment choice the customer makes. The customer is responsible for the full cost and installation of any equipment
2. Zia is not responsible for any decision about which licensed and qualified contractor the customer selects. Zia encourages its customers to carefully research and select a New Mexico licensed plumber or heating, ventilation and air-conditioning (HVAC) contractor to install qualifying equipment. Zia is not responsible for any damage caused (a) when a contractor enters a customer's premises or during installation, (b) by poor workmanship or (c) by failure to complete projects. Zia will not intervene in disputes between a customer and his or her selected contractor. Zia also strongly encourages participating customers to be sure any installation conforms to all applicable codes, permit requirements and manufacturer installation recommendations and requirements. Zia is not responsible for determining whether a customer's appliances are installed correctly or safely. In the event you believe an appliance is unsafe or you detect the odor associated with natural gas, you agree to immediately call the Zia office.
3. The Department of Energy provides information on projected energy saving for different types of appliances and installations. Zia makes no warranty concerning the accuracy of this information or whether the devices the customer selects will accomplish the projected energy and cost savings.
4. Zia requires each customer to present a completed rebate application and is unable to process incomplete applications. It is the responsibility of the customer to ensure the contractor has completed and signed the application. Zia reserves the right to verify all information provided. Zia is not responsible if the dealer/installer, retailer, or contractor fails to provide accurate information about the amount of a rebate or eligibility.
5. This program is applicable to any Zia current customer as specified by original Rate Rider No. 2, Energy Efficiency Rider. Rebates are only available to active customers of Zia, with the exception that the New Construction Measure rebate is available to a prospective Zia customer with an approved Zia Application for Gas Service. Only qualified natural gas equipment purchased, installed or serviced, and qualified inspection performed during program year will be considered for a rebate. Zia encourages each customer to review all program eligibility and requirements.
6. Completed rebate applications will be reviewed and processed by Zia on a first-come, first-served basis until program funds are depleted. Rebate qualifications and amounts, and funding guidelines are subject to change. Rebate funds are limited. As a further condition to receiving a rebate, applicant agrees to allow Zia designated representative to enter applicant's premises to verify equipment installation or inspection performance. Applicant agrees that the purpose of this visit is not to assess the adequacy or safety of installation or inspection, but merely to verify that qualifying equipment has been installed or the qualifying inspection was performed.
7. This Agreement constitutes and represents the complete and entire agreement between the customer and Zia with respect to the subject matter contained herein, and supersedes any prior and contemporaneous agreements, arrangements and understandings of the Parties, whether written or oral, which are hereby terminated and of no further force and effect. The terms of this agreement may not be altered, modified or supplemented except by a writing signed by each of the Parties.
8. Energy Efficiency Program and Rate Rider No. 2 approved by NMPRC Case No. 21-00222-UT Final Order March 24, 2022
9. Limited to one rebate per measure per customer with exception that Water Conservation Package may be paired with one other water heater measure.
10. Processing time for rebates will be between 6 to 8 weeks.

I hereby certify that all information is accurate, including claims of customer and equipment or inspection information. My signature below indicates I have read, understand and agree to all terms and conditions on this application and acknowledge that Zia may verify all the information provided.
