

Space heating accounts for the largest proportion of natural gas consumption in residential applications. This leads to terrific opportunities for energy efficiency savings while improving the comfort of your home. High efficiency furnaces are designed with advanced technologies and high-quality components that often last longer and have longer warranties than standard models. They are also safer and reduce the threat of delivering dangerous carbon monoxide exhaust into your home.

Zia Natural Gas Company offers eight distinct rebates within this measure to save energy and money with space heating. Additional information is provided below. When applying for Space Heating Rebate, please **complete rebate application pages 1, 2 & 6.**

Rebates Available:

- \$250 rebate for installation of natural gas furnace with **AFUE of 92 to 94.9%**
- \$325 rebate for installation of natural gas furnace with **AFUE of 95% or higher**
- \$300 rebate for installation of boiler/hydronic heating system with **AFUE of 90% or higher**
- \$350 rebate for upgrade from electric resistive heat to gas forced air heat, **AFUE 95% or higher**
- \$300 rebate for installing or upgrading ceiling insulation from R-11 or lower to **R-30** or higher
- \$50 rebate for 16-point gas furnace inspection and tune-up (once per customer per year)
- \$25 rebate for installation of a programmable thermostat
- \$50 rebate for installation of a smart thermostat

Eligibility:

- To qualify you must be a current or prospective customer who receives natural gas service from Zia Natural Gas Company, as proven by customer account number.
- You are responsible for the full cost and installation of the natural gas heating system.
- Appliance must be purchased and installed or serviced after **April 1, 2025.**
- Rebates are subject to program funds and processed on first-come, first-served basis.
- Zia Natural Gas Company reserves the right to inspect completed upgrades to verify compliance with the Energy Efficiency Program.

How to Participate:

1. Contact a New Mexico-licensed contractor to install your new water heating equipment.
2. Review program eligibility and requirements with your contractor.
3. Have contractor install the new equipment.
4. Submit completed Rebate Application along with a copy of your equipment receipt and/or contractor invoice and two photos: One photo of equipment installed and second photo of equipment manufacturer's decal displaying make, model and serial number. Drop application and documents off at your local Zia office or mail to:
